الاطقم الجزئية (2) المستوى الثاني - فني اسنان

د.نهله الجحدري

- 1) Blanching of the mucosa and pain during insertion of partial denture is indicating
 - 1) flange undercut
 - 2) un adapted clasp
 - 3) occlusion interference
 - 4) None of the above
- 2) After insertion of the partial denture the occlusion adjusted until
 - 1) patient feel comfortable
 - 2) artificial teeth meet only
 - 3) natural teeth meet precisely
 - 4) None the above
- 3) Any premature occlusal contact will be adjusted by
 - 1) PIP
 - 2) Articulating paper
 - 3) Alginate
 - 4) None the above
- 4) Alight center surrounded by a ring of ink by the articulating paper on a tooth indicate
 - 1) light occlusion
 - 2) no occlusion
 - 3) heavy occlusion
 - 4) None of the above
- 5) The upper palatal cusps and lower buccal cusps (functional cusps) should be preserved to maintain
 - 1) vertical dimension
 - 2) centric relation
 - 3) none of the above
 - 4) all of the above
- 6) In this type of partial denture,retention is gained by physical means like adhesion, cohesion and interfacial surface tension(no clasps)
 - 1) Every's denture
 - 2) spoon denture
 - 3) Immediate denture
 - 4) None of the above
- 7) Premature contacts are eliminated by grinding the distal facing inclines of upper anteriors and mesial facing inclines of lower anteriors in
 - 1) protrusive excursion
 - 2) lateral excursion
 - 3) centric relation
 - 4) all of the above
- 8) After adjustments to the dentures have been completed, all areas have been ground should be
 - 1) cleaned
 - 2) washed
 - 3) repolished
 - 4) None of the
- 9) Contraindications of relining include
 - 1) Dentures with major speech problem
 - 2) Presence of severe osseous undercuts
 - 3) Presence of abused soft tissues

- 4) all of the above
- 10) The procedures used to resurface the tissue side of a removable dental prosthesis with new base material, thus producing an accurate adaptation to the denture foundation area
- 1) relining
 - 2) rebasing
 - 3) repair
 - 4) All of the above
- 11) Patients with complaint of looseness or instability of dentures following a long-standing history of comfort and satisfaction with the dentures is an indication of
- 1) rebasing
 - 2) relining
 - 3) repair
 - 4) all of the above
- 12) In relining, the resin denture base is prepared for reline impression by removing a layer of resin from the tissue surface of the denture base as well as all the.....e
- 1) thin, teeth
 - 2) thick, base
 - 3) uniform, undercut areas
 - 4) None of the above
- 13)The denture in the relining procedure will act as
- 1) special try
 - 2) a base
 - 3) all of the above
 - 4) None of the above
- 14) .Small defects in the impression of the relining procedure can be corrected with mouth temperature
- 1) impression material
 - 2) stone
 - 3) wax
 - 4) all of the above
- 15) The laboratory process of replacing the entire denture base material on an existing prosthesis
- 1) Relining
 - 2) Rebasing
 - 3) Repair
 - 4) all of the above
- 16) ?Indication of Rebasing include
- 1) Under extension of denture flange
 - 2) Fracture of denture base
 - 3) Staining or discoloration of denture base
 - 4) all of the above
- 17) Is always only a laboratory technique
- 1) Relining
 - 2) Rebasing
 - 3) Repair
 - 4) None of the above
- 18) In Rebasing, when anterior teeth are involved, the junction of old and new resin should not be visible when patient smiles by
- 1) Shaping the old denture border to finish in a butt joint with the new
 - 2) finishing the surface
 - 3) polishing the surface

- 4) - None of the above
- 19) ...We need occlusal adjustment after
- 1) - Relining only
 - 2) - Rebasing only
 - 3) + Relining and Rebasing
 - 4) - None of the above
- 20) The broken segments of the partial denture are dovetailed along the fracture line to Provide
- 1) + retention for the new resin
 - 2) - aesthetic to the new resin
 - 3) - smoothness to the new resin
 - 4) - None of the above
- 21) In repair before reassembling the pieces of denture and held them in position with sticky wax, The Cast is painted with
- 1) - acrylic
 - 2) - wax
 - 3) + separating medium
 - 4) - all of the above
- 22) An accurate opposing cast is needed and a jaw relation record is made in
- 1) + Replacement of denture teeth
 - 2) - Relining
 - 3) - Rebasing
 - 4) - None of the above
- 23) If a number of teeth need replacement or associated denture base areas are also missing; we do
- 1) + Rebasing
 - 2) - Relining
 - 3) - Replacement of denture teeth
 - 4) - None of the above
- 24) Breakage of a clasp may result from repeated flexure into and out of too ... Undercut
- 1) - shallow
 - 2) + sever
 - 3) - NO
 - 4) - None of the above
- 25) This type of the partial denture used to increase or restore the vertical dimension on a temporary basis
- 1) + Treatment acrylic partial denture
 - 2) - interim partial denture
 - 3) - Transitional partial denture
 - 4) - None of the above
