علم وظائف الأعضاء عملي المستوى الثاني - طب وجراحة الفم والاسنان

ديسرى شرف الدين

- 1) Neutrophils in CBC assay indicates:
 - 1) - Allergies
 - 2) - Parasitic infection
 - 3) - Viral infection
 - 4) Bacterial infection
- 2) What is CBC shortcut?
 - 1) Complete Blood count
 - 2) - Critical Blood Composition
 - 3) - Comprehensive Blood Check
 - 4) - Central Blood Calculation
- 3) Which method is commonly used for manual ESR testing?
 - 1) Westergren method
 - 2) - ELISA method
 - 3) - Hematocrit method
 - 4) - PCR method
- 4) In ECG how many number of leads that put on chest :
 - 1) 6 leads
 - 2) - 4 leads
 - 3) - 7 leads
 - 4) - 10 leads
- 5) Which of the following values is an indicator of jaundice when elevated?
 - 1) - Albumin
 - 2) Bilirubin
 - 3) - Creatinine
 - 4) - Sodium
- 6) Increase in blood sugar is
 - 1) - hypoglycemia
 - 2) hyperglycemia
 - 3) - Prediabetes
 - 4) - hyperthermia
- 7) Which of the following results typically indicates impaired kidney function?
 - 1) - Decreased creatinine level
 - 2) Increased creatinine level
 - 3) - Normal protein level in urine
 - 4) - Normal urea level
- 8) the purpose of a spirometry test?
 - 1) - To measure blood pressure
 - 2) - To measure body temperature
 - 3) To measure lung function
 - 4) - To measure heart rate
- 9) What is the primary test used to measure the blood's ability to clot?
 - 1) - Complete Blood Count (CBC)
 - 2) Prothrombin Time (PT)
 - 3) - Blood Glucose Test
 - 4) - Kidney Function Test

- 10) What is the normal count of red blood cells in the blood?
- 1) (4 - 5.5) million cell / micro liter
 - 2) (3 - 4) million cell / melli liter
 - 3) (4 - 5.5) miliion cell / deci liter
 - 4) (4 - 5.5) billion cell / micro liter
- 11) when temperature exceeds (40.6°C)
- 1) Hyperthermia
 - 2) Hypothermia
 - 3) Hyperplasia
 - 4) Hypertensive
- 12) Which of these is not from PULSE RATE
- 1) arrhythmia
 - 2) Bradycardia
 - 3) Tachycardia
 - 4) Asystolia
- 13) 140/ 90 blood pressure is
- 1) normal
 - 2) pre hypertension
 - 3) stage 1 hypertension
 - 4) stage 2 hypertension
- 14) Which of these is advantage of mercury Sphygmomanometer
- 1) bulky
 - 2) breakable glass column
 - 3) hazardous if mercury spills
 - 4) accurate
- 15) Yellow discoloration of the skin is a sign of acute or chronic liver disease
- 1) Jaundice
 - 2) Pale skin
 - 3) Purple or bluish skin
 - 4) Flushed skin
- 16) which of these is from pain assessment
- 1) site
 - 2) onset
 - 3) character
 - 4) all
- 17) which of these is responsiveness from motor responses
- 1) response to pain
 - 2) response to speech
 - 3) response to abnormal flexion
 - 4) response to oriented places
- 18) Oxygen Saturation is vital signs
- 1) first
 - 2) second
 - 3) fourth
 - 4) fifth
- 19) which of these sites we can monitoring pulse
- 1) carotid
 - 2) facial

- 3) - lingual
4) - trigeminal
20) which of these sites is lower than oral site & reflect shell rather than core temperature
1) - rectal site
2) + axillary site
3) - tympanic site
4) - forehead site
