ميكروبيولوجيا طبية-(433204)-الثالث -احياء دقيقة-كلية العلوم-درجة الامتحان (50)

سعيد منصر الغالبي

- 1) Maduromycosis is fungal disease caused by
  - 1) - Fungi only
  - 2) - Actinomycetes
  - 3) - Fungi and viruses
  - 4) + Fungi and actinomyces
- 2) He is regarded as father of medical Microbiology
  - 1) - Waksman
  - 2) + Louis Pasteur
  - 3) - Robert Koch
  - 4) - Raymond Sabouraud
- 3) Histoplasmosis is a fungal disease characterize by the following except one
  - 1) - Systemic fungal disease
  - 2) + Caused by Histoplasma brasiliens
  - 3) - The infection start in the lung
  - 4) - The causal fungus is dimorphic
- 4) Vaginal and oral thrush is a fungal disease caused by
  - 1) - Microsporium canis
  - 2) - Penicillium marneffeii
  - 3) - Aspergillus flavus
  - 4) + Candida albicanis
- 5) Gonorrhea of the urogenital tract is a disease caused by:
  - 1) - Proteus gonorrhoeae
  - 2) + Neisseria gonorrhoeae
  - 3) - Escherichia gonorrhoeae
  - 4) - Shigella gonorrhoeae
- 6) Tinea pedis is a cutaneous fungal disease which infect
  - 1) - Toe nails
  - 2) + feet
  - 3) - The bearded area of the face
  - 4) - The body area
- 7) Pathogenic fungi have the ability to overcome phagocytosis by
  - 1) + Coagulase
  - 2) - Keratinase
  - 3) - Protease
  - 4) - Pseudohyphe
- 8) Mycotic keratitis is the inflammation of
  - 1) + Cornea of the eye by fungi
  - 2) - External ear
  - 3) - Conjunctivite of the eye
  - 4) - Cornea of the eye by bacteria
- 9) Salmonella typhi is a Gram negative bacteria caused a disease called
  - 1) - Leprosy
  - 2) + Typhoid fever
  - 3) - Skin disease
  - 4) - Plague

- 10) Scarlet fever is a disease caused by *Streptococcus pyogenes* due to toxin
- 1) ☒ Erythrogenic toxin
  - 2) ☐ Enterotoxin 1
  - 3) ☐ Enterotoxin B
  - 4) ☐ Exfoliatin toxin
- 11) *Bacillus anthracis* is a Gram positive aerobic bacteria caused disease called
- 1) ☐ Cutaneous anthrax
  - 2) ☐ Pulmonary anthrax
  - 3) ☐ Intestinal anthrax
  - 4) ☒ All answers are correct
- 12) Acute glomerulonephritis is a disease usually followed infection of skin by
- 1) ☒ *Streptococcus pyogenes*
  - 2) ☐ *Actinomyces israeli*
  - 3) ☐ *Streptomyces somaliensis*
  - 4) ☐ *Staphylococcus epidermidis*
- 13) *Microsporium canis* is a fungi caused disease
- 1) ☐ Subcutaneous mycosis
  - 2) ☒ Cutaneous mycosis
  - 3) ☐ Systemic mycosis
  - 4) ☐ Opportunistic mycosis
- 14) Onychomycosis is a cutaneous fungal disease caused by
- 1) ☐ Dermatophytes
  - 2) ☐ Dermatophytes and bacteria
  - 3) ☐ Dermatophytes and Non dermatophytes
  - 4) ☒ Dermatophytes + Non dermatophytes and yeast
- 15) Tonsillar diphtheria is a disease caused by
- 1) ☒ *Corynebacterium diphtheriae*
  - 2) ☐ *Bacillus diphtheriae*
  - 3) ☐ *Actinomyces diphtheriae*
  - 4) ☐ *Clostridium diphtheriae*
- 16) Gas gangrene is a disease caused by
- 1) ☐ *Bacillus anthrax*
  - 2) ☒ *Clostridium perfringens*
  - 3) ☐ *Clostridium botulinum*
  - 4) ☐ *Clostridium tetani*
- 17) Paracoccidioidomycosis is a fungal disease which belong to
- 1) ☐ Opportunistic mycosis
  - 2) ☐ Superficial mycosis
  - 3) ☐ Subcutaneous mycosis
  - 4) ☒ Systemic mycosis
- 18) Leukocidin is an enzyme produce by pathogenic bacteria and fungi to
- 1) ☐ Break down the fibrin barrier in human tissue
  - 2) ☐ Destroy erythrocytes (RBC)
  - 3) ☒ kill phagocytes of the immune system
  - 4) ☐ Spilt hyaluronic acid the component of connective tissue.
- 19) Otomycosis is a fungal disease which infect
- 1) ☐ The cornea of the eye
  - 2) ☐ The eye lids.
  - 3) ☒ The external part of the ear

- 4) - Throat of the mouth
- 20) Proteus bacteria characterized by the following except one
- 1) - Gram negative bacteria
  - 2) - Caused urinart tract infection
  - 3) - Swarming growth on culture
  - 4) ☒ Cocci in shape
- 21) Antifungal drug which forms pores in plasma memmbrane of fungi
- 1) - Azoles
  - 2) ☒ Polyenes
  - 3) - Flucytosin
  - 4) - Grisofulvin
- 22) Penicillosis is a fungal disease caused by
- 1) - Penicillium citrinum
  - 2) ☒ Penicillium marneffeii
  - 3) - Penicillium chrysogenum
  - 4) - All is correct
- 23) Scalded skin syndrome is a disease caused by Staphylococcus .aureus due to production of
- 1) - Enterotoxin 1
  - 2) - Enterotoxin B
  - 3) ☒ Exfoliatin toxin
  - 4) - Endotoxin
- 24) Sporotrichosis is a fungal infection caused by Sporothrix schenkii which infect
- 1) ☒ Subcutaneous
  - 2) - Systemic
  - 3) - Cutaneous
  - 4) - Superficial
- 25) It is one of the most important post Streptococcal disease
- 1) - Scarlet fever
  - 2) - urinary tract infection
  - 3) ☒ Acute rheumatic fever
  - 4) - Genital tract infection
