علم الادوية 4-الصيدلة مستوى رابع-60 درجة

د.محمد الخولاني

- 1) Which of the following drugs is used in inflammatory bowel disease:
 - 1) - Sulphacetamide
 - 2) - Sulfamethoxazole + trimethoprim
 - 3) + Sulphasalazine
 - 4) - Sulfadoxine + pyrimethamine
- 2) Hemolysis (G-6-PD deficiency) is a side effect of all of the following drugs except:
 - 1) + Bedaquiline
 - 2) - Dapsone
 - 3) - Nitrofurantoin
 - 4) - Isoniazid.
- 3) Which of the following drugs used for treatment of tuberculosis?
 - 1) - Primaquine
 - 2) - Miltefosine
 - 3) + Bedaquiline
 - 4) - Metronidazole
- 4) Which of the following drugs used for treatment of Leishmaniasis?
 - 1) - Primaquine
 - 2) + Miltefosine
 - 3) - Bedaquiline
 - 4) - Metronidazole
- 5) Which of the following drugs used for treatment of trichomoniasis?
 - 1) - Primaquine
 - 2) - Miltefosine
 - 3) - Bedaquiline
 - 4) + Metronidazole
- 6) The following drugs used as Prophylactic against tuberculosis Except
 - 1) - Rifampin
 - 2) + Ethambutol
 - 3) - Moxifloxacin
 - 4) - Isoniazid.
- 7) Hepatotoxicity, peripheral neuropathy is a side effect of:
 - 1) + Isoniazid
 - 2) - Ethambutol
 - 3) - Rifampin
 - 4) - Pyrazinamide
- 8) Which of the following drugs used for treatment of tuberculosis and Leprosy?
 - 1) - Para Amino Salicylic acid
 - 2) - Pyrazinamide
 - 3) + Bedaquiline
 - 4) - Dapsone
- 9) Treatment of leprosy is:
 - 1) - Rifampicin + Dapsone
 - 2) - Rifampicin + Clofazamine
 - 3) + Rifampicin + Dapsone + Clofazamine
 - 4) - Rifampicin + Ofloxacin + Minocycline

- 10) Amphotericin B renal and infusion toxicity can be reduced by?
- 1) ☒ Incorporating it in liposomal complex
 - 2) ☐ Combining with fluconazole
 - 3) ☐ Combining with flucytosine
 - 4) ☐ Injecting the drug with dextrose
- 11) Which of the following drug is used only topical?
- 1) ☒ clotrimazole
 - 2) ☐ Itraconazole
 - 3) ☐ Griseofulvin
 - 4) ☐ voriconazole
- 12) The first-choice drug used for the treatment of Vulvovaginal candidiasis infection?
- 1) ☒ Clotrimazole
 - 2) ☐ Itraconazole
 - 3) ☐ Nystatin
 - 4) ☐ Caspofungin
- 13) Amphotericin B causes deficiency of?
- 1) ☐ Sodium
 - 2) ☒ Potassium
 - 3) ☐ Calcium
 - 4) ☐ Chloride
- 14) Voriconazole is not effective against:
- 1) ☐ Candida albicans
 - 2) ☒ Mucormycosis
 - 3) ☐ Candida tropicalis
 - 4) ☐ Aspergillosis
- 15) Which of the following drug is antifungal antibiotic?
- 1) ☐ Azoles
 - 2) ☐ Caspofungin
 - 3) ☐ Flucytosine
 - 4) ☒ Nystatin
- 16) Fluconazole is more effective than itraconazole in the following systemic fungal disease:
- 1) ☐ Pulmonary histoplasmosis
 - 2) ☐ sporotrichosis
 - 3) ☐ Blastomycosis
 - 4) ☒ Cryptococcal meningitis
- 17) Which of the following drug more effective in onychomycoses?
- 1) ☒ Terbinafine
 - 2) ☐ Itraconazole
 - 3) ☐ Clotrimazole
 - 4) ☐ Griseofulvin
- 18) The drug used for herpes and cytomegalovirus infection is:
- 1) ☒ Foscarnet
 - 2) ☐ Amantadine
 - 3) ☐ Ribavirin
 - 4) ☐ Boceprevir
- 19) Which of the following drug act by protease inhibitors?
- 1) ☐ Abacavir
 - 2) ☐ Nevirapine
 - 3) ☒ Nelfinavir

- 4) - Stavudine
- 20) The drug which belongs to nonnucleoside reverse transcriptase inhibitors?
- 1) - Abacavir
- 2) + Nevirapine
- 3) - Nelfinavir
- 4) - Stavudine
- 21) Which of the following drug is used for AIDS disease treatment?
- 1) - Zanamivir
- 2) + Ritonavir
- 3) - Acyclovir
- 4) - Ribavirin
- 22) The Neuraminidase inhibitors drug is:
- 1) + Oseltamivir
- 2) - Amantadine
- 3) - Lamivudine
- 4) - Boceprevir
- 23) Ganciclovir is preferred over acyclovir in the following condition:
- 1) - Herpes simplex
- 2) - Chickenpox.
- 3) - Herpes zoster
- 4) + Cytomegalovirus
- 24) Drug causing maximum peripheral neuropathy as side effect is:
- 1) + Stavudine
- 2) - Zidovudine
- 3) - Lamivudine
- 4) - Emtricitabine
- 25) Which of the following drug is used for Hepatitis C treatment?
- 1) - Zanamivir
- 2) - Ritonavir
- 3) - Acyclovir
- 4) + Ribavirin
- 26) All of the following antimalarial drugs influence blood schizonts, EXCEPT;
- 1) - Mefloquine
- 2) - Quinine
- 3) - Chloroquine
- 4) + Primaquine
- 27) What is true of ivermectin?
- 1) - It is the most effective drug for strongyloidosis
- 2) - It is the drug of choice for onchocerciasis
- 3) - It acts by activating glutamate-gated chloride channel receptors
- 4) + All of the above
- 28) The drug of choice for neurocysticercosis is:
- 1) - Metronidazole
- 2) + Albendazole
- 3) - Praziquantel.
- 4) - Ivermectin
- 29) The broad spectrum drug for cestodosis, trematodosis and cyclicercosis treatment is:
- 1) - Metronidazole
- 2) - Albendazole

- 3) ☒ Praziquantel.
- 4) ☐ Ivermectin
- 30) Pyrantel pamoate is effective in treatment of all of the following EXCEPT:
- 1) ☐ Ascaris
- 2) ☐ Ancylostomiasis
- 3) ☐ Enterobius
- 4) ☒ Tinea sodium
