

قائمة الاسئلة

علم التشريح التطبيقي - تخدير - المستوى الثاني - قسم تخدير - كلية الطب والعلوم الصحية - برامج العلوم الطبية التطبيقية - الفترة الثانية - درجة 171
د/ صالح عبدالخالق سعد المعرشي

- 1) 1.The muscle which open the vocal folds all, except
 - 1) - a) Lateral cricoarytenoid muscle
 - 2) - b) Thyroarytenoid muscle
 - 3) - c) Cricothyroid muscle
 - 4) + d) Thyrohyoid muscle
- 2) 2.The only elastic cartilage of larynx is :
 - 1) - a) Cricoid cartilage
 - 2) - b) Thyroid cartilage
 - 3) - c) Arytenoid cartilage
 - 4) + d) epiglottic cartilage
- 3) 3.The primary bronchus is having :
 - 1) - a) C shaped cartilage
 - 2) + b) O shaped cartilage
 - 3) - c) E shaped cartilage
 - 4) - d) none
- 4) 4.Root of right lung is having
 - 1) - a) Ep bronchus
 - 2) - b) Hyp bronchus
 - 3) + c) Both
 - 4) - d) None
- 5) 5.Blood supply of the lung
 - 1) - a) pulmonary artery
 - 2) + b) bronchial artery
 - 3) - c) pulmonary vein
 - 4) - d) none
- 6) 6.Blood flows from right ventricle to the lungs via
 - 1) + a) pulmonary trunk
 - 2) - b) pulmonary artery
 - 3) - c) Pulmonary vein
 - 4) - d) aortic
- 7) 7. The pulmonary valve is
 - 1) + a) Tricuspid
 - 2) - b) Bicuspid
 - 3) - c) mitral
 - 4) - d) none
- 8) 8.recurrent laryngeal nerve supplies all the muscles of larynx except.
 - 1) - a) Cricoarytenoid m
 - 2) - b) Thyrohyoid m
 - 3) - c) Aryepiglottic m
 - 4) + d) Cricothyroid m
- 9) 9.Vagus nerve
 - 1) - a) 1 nucleus
 - 2) - b) 2 nucleus
 - 3) - c) 3 nucleus
 - 4) + d) 4 nucleus
- 10) 10.stylopharengal muscle is supplied by

- 1) - a) recurrent laryngeal nerve
2) - b) superior laryngeal nerve
3) - c) external laryngeal nerve
4) + d) Glossopharyngeal nerve
- 11) 11. -All the above function of nasal cavity except :
1) - a) Voice
2) - b) Respiration
3) - c) Smell
4) + d) None of them
- 12) 12. -The muscle which Elevator of pharynx and larynx is
1) - a) Stylopharyngeus muscles
2) - b) Salpingo-pharynges muscle.
3) - c) Palato-pharynges' muscle
4) + d) All of them
- 13) 13. All the following are branches of external carotid artery except :
1) - a) Ascending pharyngeal artery
2) - b) occipital artery
3) + c) meningeal artery
4) - d) maxillary artery
- 14) 14. All the intrinsic muscles of the larynx are supplied by :
1) + a) the recurrent laryngeal nerve
2) - b) mandibular nerve
3) - c) external laryngeal nerve .
4) - d) All of the above
- 15) 15. Pulmonary valve and Aortic valve are:
1) - a) atrioventricular valves
2) + b) semilunar valves
3) - c) All of the above
4) - d) none of the above
- 16) 16. The heart is separated from the vertebral column by:
1) - a) pericardium.
2) - b) Right pulmonary veins
3) + c) the esophagus and the aorta.
4) - d) All of the above
- 17) 17. The right atrium receives:
1) + a) deoxygenated blood
2) - b) oxygenated blood
3) - c) All of the above
4) - d) none of the above.
- 18) 18. Connects the medial surface of the lung to the mediastinum:
1) + a) Trachea
2) - b) Tracheobronchial tree
3) - c) Bronchi
4) - d) Root of the lung
- 19) 19. The conduction system of the heart is made up of
1) - a) SA node
2) - b) AV node
3) - c) AV bundle
4) + d) All of the above

20) 20. Separates the costal surface from the medial surface:

- 1) - a) inferior border
- 2) + b) anterior border
- 3) - c) posterior border
- 4) - d) b and c
