اختبار النهائي للعام الجامعي 2025/2024-مكلية الطب - شعبة طب بشري :: الطب الشرعي-الرابع -طب وجراحة- كلية الطب والعلوم الصحية - در
أ.د. نبيل الحمادي

- 1) Universal antidote contains tannin,milk &antacid ()
 - 1) - True.
 - 2) False.
- 2) Morphine, pethidine, tramadol & cocaine are opium agents ()
 - 1) - True.
 - 2) False.
- 3) Papaverine, apomorphine, nalorphine &dextropropoxephene are non addicting agents ()
 - 1) - True.
 - 2) False.
- 4) Codeine is diacetyl morphine ()
 - 1) - True.
 - 2) False.
- 5) Heroin is methylmorphine ()
 - 1) - True.
 - 2) False.
- 6) Shabow is metamphetamine ()
 - 1) True.
 - 2) - False.
- 7) Dangerous local effect occurs due to dettol poisoning ()
 - 1) - True.
 - 2) False.
- 8) Magnesium sulfate is the antidote for oxalic acid ()
 - 1) - True.
 - 2) False.
- 9) Neurogenic shock causes death in corrosive ingestion ()
 - 1) True.
 - 2) - False.
- 10) Water is the most immediate treatment for corrosive ingestion ()
 - 1) True.
 - 2) - False.
- 11) Diazinon is used widely as organophosphorous agent ()
 - 1) - True.
 - 2) False.
- 12) Methomyl is an organochlorine insecticide ()
 - 1) - True.
 - 2) False.
- 13) Organophosphorous &organochlorine are treated by atropine ()
 - 1) - True.
 - 2) False.
- 14) Topaz is a spiderocide ()
 - 1) - True.
 - 2) False.
- 15) Abamectan is a combination of organophosphorous &fungicide ()
 - 1) - True.
 - 2) False.
- 16) Zincphoshide & warfarin cause bleeding ()

- 1) - True.
2) False.
- 17) Irritant poisons have cumulative effect ()
1) True.
2) - False.
- 18) Paralidoxime is used for high doses & in nicotinic stage of OPC ()
1) True.
2) - False.
- 19) Ethylene glycol is treated successfully by ethanol ()
1) True.
2) - False.
- 20) Ethanol is toxic by itself, & excreted in breath & urine ()
1) True.
2) - False.
- 21) Methanol is dose related, time related & toxic by itself ()
1) - True.
2) False.
- 22) Rum is an aromatic methanol ()
1) True.
2) - False.
- 23) Blindness due methanol intoxication is a bad prognosis ()
1) True.
2) - False.
- 24) The immediate antidote of methanol is Ethanol ()
1) True.
2) - False.
- 25) Kerosene & benzene cause pneumonia in small doses & CNS effects in large doses ()
1) True.
2) - False.
- 26) C.O can be treated immediately by Oxygen under pressure ()
1) True.
2) - False.
- 27) Polyvalent antivenin is a horse extract for all poisonous snakes ()
1) True.
2) - False.
- 28) In Yemen polyvalent & specific antivenin are used for snake bite ()
1) - True.
2) False.
- 29) One dose of snake antivenin equals 10 vials ()
1) True.
2) - False.
- 30) For all poisonous snakes antivenin is increased gradually ()
1) True.
2) - False.
- 31) Antidote is used if poison is already absorbed ()
1) True.
2) - False.
- 32) Universal antidote is given for two or more poisons ()
1) True.

- 2) - False.
- 33) Mechanical emesis can be done by finger gag reflex ()
1) - True.
2) False.
- 34) Salt & water can be used to induce emesis ()
1) - True.
2) False.
- 35) Decontamination of GIT are emesis, gastric wash & purgatives ()
1) True.
2) - False.
- 36) Captagon, shabow, doobby drugs & blue whale are methamphetamine compounds ()
1) - True.
2) False.
- 37) LSD, Hashish & Bhango are hallucinogen agents ()
1) True.
2) - False.
- 38) Khat belongs to the pseudoephedrine group ()
1) True.
2) - False.
- 39) Benzodiazepines antidote is physostigmine ()
1) - True.
2) False.
- 40) TCAs antidote is Fomipizloe ()
1) - True.
2) False.
- 41) Dipsomania is a periodic craving for alcohol ()
1) True.
2) - False.
- 42) Jellous husband syndrome is due to cocaine addiction ()
1) - True.
2) False.
- 43) Chronic alcoholism can be treated with disulfiram during alcohol intake ()
1) - True.
2) False.
- 44) Acute alcohol poisoning causes hypoglycemia, hypomagnesaemia & alcoholic ketoacidosis ()
1) True.
2) - False.
- 45) Designer drugs are amphetamine, LSD & some vitamins ()
1) True.
2) - False.
- 46) Antiscorpion serum venom is a goat extract ()
1) True.
2) - False.
- 47) Charcoal is useful for all cases of poisoning including corrosives ()
1) - True.
2) False.
- 48) Esophageal stricture is a dangerous complication in corrosive ingestion ()
1) True.
2) - False.

49) Pulmonary effects of corrosives can be treated by cortisone ()

- 1) True.
- 2) False.

50) Hashish, marijuana & bhango contain 85% of THC ()

- 1) True.
- 2) False.
