

قائمة الاسئلة

الوسائل العلاجية - () - المستوى الثاني - قسم العلاج الطبيعي - كلية الطب والعلوم الصحية - الفترة الخامسة - درجة الامتحان (70)

د/ اروى الحرازي

- 1) Relaxation of muscle Spasms from the electrotherapy
 - 1) indications
 - 2) the chonic effects
 - 3) Contraindications
 - 4) Nothing mentioned
- 2) the Low Frequency modalities as
 - 1) Tens
 - 2) Short wave
 - 3) Micro wave
 - 4) meter
- 3) the Classification of electrical stimulating currents
 - 1) mono Phasic
 - 2) u/s
 - 3) prarffin
 - 4) I.R
- 4) Definition of the uls
 - 1) it is low frequency mechanical energy
 - 2) it is high frequency mechanical energy
 - 3) I.R
 - 4) it is medium frequency mechanical energy
- 5) the component of the uls
 - 1) Faradic current
 - 2) Rectangular Pulse
 - 3) barium titanate
 - 4) All mentioned
- 6) the treatment duration uls in the chronic condition
 - 1) 1-5 minutes
 - 2) 3-10 minutes
 - 3) 60 minutes
 - 4) 3-45 minutes
- 7) Paraffin wax temperature at melting
 - 1) 52-55c
 - 2) 40-44c
 - 3) 5-10c
 - 4) 60-80c
- 8) the Vitamin D Production
 - 1) I.R
 - 2) paraffin wax
 - 3) UVR
 - 4) uls
- 9) the indications for use of Paraffin wax in the treatment
 - 1) T.B
 - 2) Scar
 - 3) edema
 - 4) Nothing mentioned

- 10) Types of basic therapeutic currents are
- 1) - 1-6 current
 - 2) 1-8 current
 - 3) - 1-5 current
 - 4) - I.R
- 11) Definition DDC
- 1) - Long term
 - 2) Short term
 - 3) - Low term
 - 4) - water
- 12) the Long Periods (LP) the Types of the
- 1) - I.F.C
 - 2) - I.R
 - 3) DDC
 - 4) - Nothing mentioned
- 13) the Physiological effects of I.R
- 1) Stimulation of sensory nerve
 - 2) - eczema
 - 3) - Tumors
 - 4) - All mentioned
- 14) the heat distance between the device and the Patient I.R
- 1) - 1-15 cm
 - 2) 18-24 cm
 - 3) - 18-80 cm
 - 4) - 24-100 cm
- 15) Factors that depend on the absorption of infrared radiation are
- 1) - High frequencies
 - 2) - chronic Pain
 - 3) the angle of falling on the body
 - 4) - sharp anglr on the body
- 16) The infrared rays are
- 1) Electro magnetic
 - 2) - diagnosis
 - 3) - mechanical
 - 4) - All mentioned
- 17) The factors regulating absorption I.R
- 1) - Waves
 - 2) Intensity of I.R
 - 3) - Current
 - 4) - All mentioned
- 18) Chronic infrared infections such as :-
- 1) - Open wounds
 - 2) - The dermatitis
 - 3) Soft tissues
 - 4) - Nothing mentioned
- 19) The angle of falling from the infrared ray is :-
- 1) cm 75 - 50
 - 2) - Inch 23 -18
 - 3) - cm 85 - 45

- 4) - Nothing mentioned
- 20) Only the thermostat parts found in :-
- 1) - I.R
 - 2) Paraffin
 - 3) - Galvani
 - 4) - All mentioned
- 21) One of the benefits of paraffin works on the effect of stretching in ?
- 1) Scar
 - 2) - Pain relief
 - 3) - arteries
 - 4) - Nothing mentioned
- 22) The melting point of paraffin wax is at :-
- 1) - 40 – 44 c
 - 2) - 52 – 57 c
 - 3) 51 – 55 c
 - 4) - Nothing mentioned
- 23) Galvanic is considered of currents :-
- 1) - High frequency
 - 2) - Medium frequency
 - 3) Low frequency
 - 4) - All mentioned
- 24) Current treatment rectangular pulsed:-
- 1) innervated muscle tissue
 - 2) - non -innervated muscle tissue
 - 3) - increased muscle tone
 - 4) - All mentioned
- 25) It works on the production of endorphins in the body :-
- 1) Tens
 - 2) - D.DC
 - 3) - I F C
 - 4) - Nothing mentioned
- 26) Indication for use I.F.C he is
- 1) - scar
 - 2) edema
 - 3) - DV.T
 - 4) - Nothing mentioned
- 27) The Advantages of the I.F.C treating
- 1) nerves
 - 2) - Joints
 - 3) - Body fluids ident remember
 - 4) - All mentioned
- 28) Electro therapy is about :-
- 1) - Diagnostic
 - 2) Energy
 - 3) - Surgical
 - 4) - Nothing mentioned
- 29) Medium frequency modality as :-
- 1) - I.R
 - 2) I . F . T

- 3) - Faradic current
4) - All mentioned
- 30) Low frequency modalities as :-
1) - Tens
2) + GC
3) - u/s
4) - Nothing mentioned
- 31) definition of electrical therapy
1) + energy
2) - thermal
3) - x-ray
4) - All mentioned
- 32) the general contraindications for electrical
1) + the thrombosis
2) - edema
3) - muscle weakness
4) - Nothing mentioned
- 33) the current Galvain wither duration
1) + the muscle is long not nervous
2) - sohrt for thr muscle nervous
3) - di phase fix current
4) - All mentioned
- 34) uses triangular pulse current
1) + therapeutic
2) - surgically
3) - chemically
4) - Nothing mentioned
- 35) the indications of the I.F.C
1) + the stress incontinence
2) - T.B
3) - D.V.T
4) - All mentioned
