علاج طبيعي لأمراض الباطن-الرابعية-كلية الطب والعلوم الصحية-درجة الامتحان (70)

زينب محمد أحمد غالب ابولحوم

- 1) Dysphagia, bad breath and regurgitation are signs and symptoms of
 - 1) ☒ GERD
 - 2) ☐ Esophagitis
 - 3) ☐ GI bleeding
 - 4) ☐ All of above
- 2) Hematemesis, paleness, SOB are S&S of
 - 1) ☐ GERD
 - 2) ☐ Esophagitis
 - 3) ☒ GI Bleeding
 - 4) ☐ All of above
- 3) Abdominal massage and breathing exercises help to Treat the follow
 - 1) ☐ GERD
 - 2) ☐ Esophagitis
 - 3) ☐ GI Bleeding
 - 4) ☒ All of above
- 4) Cat cow, spinal twist and Russian twist can help to treat
 - 1) ☒ Gastritis
 - 2) ☐ endocrine disorder
 - 3) ☐ RA
 - 4) ☐ OA
- 5) Crohn's disease and H- pylori infection can cause
 - 1) ☐ GERD
 - 2) ☒ Ulcer of stomach
 - 3) ☐ Gastritis
 - 4) ☐ All of above
- 6) BMI 30 or more is
 - 1) ☐ Under weight
 - 2) ☐ Healthy weight
 - 3) ☒ Obese
 - 4) ☐ Non of above
- 7) Normal WC of men and woman is
 - 1) ☐ 94-102cm
 - 2) ☐ 80-88cm
 - 3) ☒ 80-102cm
 - 4) ☐ Non of above
- 8) To prevent DVT post operation we must do..... except
 - 1) ☐ Ankle pumps
 - 2) ☐ Breathing exercises
 - 3) ☐ Elevation
 - 4) ☒ Bed rest
- 9) To maintain posture by except
 - 1) ☐ Splint
 - 2) ☐ Breathing exercises
 - 3) ☐ CIMT
 - 4) ☒ F.S

10) Complications of untreated hyperthyroidism are except

- 1) - Stroke
- 2) - Osteoporosis
- 3) + Depression
- 4) - Atrial fibrillation

11) Physiotherapy for hypothyroidism are except

- 1) + Acupressure massage in arm
- 2) - simple neck exercises
- 3) - Bridge exercises
- 4) - Walking exercises

12) Physiotherapy for hypothyroidism is

- 1) + Tai chi exercises
- 2) - high sitting exercises
- 3) - non of above
- 4) - LLLT

13) Physiotherapy's objective for diabetic mellitus is

- 1) - treat DM
- 2) + Decrease pain
- 3) - Increase weight
- 4) - Decrease insulin sensitivity

14) Physiotherapy to anemia is

- 1) - TENS
- 2) - Massage
- 3) - breathing exercises
- 4) + All of above

15) physiotherapy for hemophilia

- 1) - EARTH
- 2) - splint
- 3) - joint mobilization
- 4) + All of above

16) Pain , swelling, warmth , chest pain and SOB are S&S of

- 1) + Blood clot
- 2) - carotid artery disease
- 3) - vasculitis
- 4) - lymphoedema

17) clinical features of RF is

- 1) - vomiting
- 2) + Arthritis
- 3) - Cutaneous nodules
- 4) - Encephalitis

18) The prognosis of RF is

- 1) - Bad prognosis for older
- 2) + Good progress for older
- 3) - Bad prognosis for female
- 4) - Good prognosis for younger

19) Differential diagnosis of RF is

- 1) - Septic arthritis
- 2) - Leukaemia
- 3) - Myocarditis

- 4) ☒ All of above
- 20) Diagnosis of RF based on
- 1) ☒ JONES criteria
- 2) ☐ Investigation
- 3) ☐ Pain
- 4) ☐ Carditis
- 21) physical examination of rheumatic disease is
- 1) ☐ Joint contracture
- 2) ☐ Rash
- 3) ☐ Joint examination
- 4) ☒ All of above
- 22) Criteria for diagnosis of SLE
- 1) ☐ Malar, rash , nephritis.
- 2) ☒ Cytopenia , pleuritis, photosensitivity, Lupus rash
- 3) ☐ Encephalopathy, cytopenia
- 4) ☐ positive antinuclear antibody test
- 23) Muscle lesion, lymphadenopathy and arthritis are signs of
- 1) ☐ Henoch- schonlein purpura
- 2) ☐ Kawasaki disease
- 3) ☒ Juvenile dermatomyositis
- 4) ☐ Ankylosing spondylitis
- 24) Aim physical therapy for Juvenile rheumatoid arthritis is
- 1) ☐ To treat stiffness
- 2) ☐ To stop swelling
- 3) ☒ To prevent deformity
- 4) ☐ To decrease muscle strength
- 25) physiotherapy equipments used to treat JRA are
- 1) ☒ U/s , IRR
- 2) ☐ Paraffin wax, hot pack.
- 3) ☐ short wave , shock wave
- 4) ☐ Non of above
- 26) In JRA we must do exercises on to have perfect effect
- 1) ☐ Room
- 2) ☒ Hydrotherapy pool
- 3) ☐ PT center
- 4) ☐ All of above
- 27) It is not sign of OA
- 1) ☐ Joint crepitus
- 2) ☐ Joint enlargement
- 3) ☐ Bony deformation
- 4) ☒ Erythema
- 28) Which of the follow is correct about OA
- 1) ☐ To pain control we use hydrotherapy and strengthening exercises.
- 2) ☒ To strengthen muscle we do PNF exercises, ARROM exercises
- 3) ☐ Using assistive devices to increase weight bearing load on joint
- 4) ☐ Deep thermal agents are IRR, hot pack.
- 29) Swan neck and Boutonniere definitely found in
- 1) ☒ Hand
- 2) ☐ Hip

- 3) - Wrist
4) - Knee
- 30) One of the follow does not use in RA
- 1) ☒ Weight bearing exercises
2) - Cryotherapy
3) - TENS
4) - Bath and IR
- 31) Ankylosing spondylitis home program are follow except one
- 1) - Sleep flat upon back on a firm
2) ☒ Use a pillow
3) - use back support during long sitting
4) - loss body weight
- 32) Physiotherapy to ankylosing spondylitis the follow except one
- 1) - Hot and ice pack
2) - TENS
3) ☒ Much exercises
4) - Breathing, stretch and strength exercise
- 33) one of the follow is wrong about crystalline arthropathies
- 1) - Inflammatory arthritis
2) - ESR test is high
3) - Physiotherapy same of OA
4) ☒ Effect large joint
- 34) Which is the follow sign of perthes disease
- 1) - Distal joints deformity
2) - Distal thigh atrophy
3) ☒ Limited of abduction and internal rotation
4) - long stature
- 35) Bankart's lesion is found in
- 1) - OA
2) ☒ perthes disease
3) - RA
4) - gout
- 36) Physiotherapy for perthes disease is.
- 1) - Active exercises for biceps muscle
2) - Adduction and external muscle of thigh strength exercise
3) - cryotherapy in the early stages
4) ☒ Non of above
